CLINICAL RESEARCH ACTIVITIES

1. Principal Investigator, A Randomized, Double Blind, Multiple Site, Placebo Controlled, Parallel-Design, Clinical study to evaluate the therapeutic equivalence of Confidential to Confidential in patients with Actinic Keratosis on the face or balding scalp.
August 2015-Present, Sponsor: Confidential
2. Principal Investigator, A Multi-Center, Double-Blind, Randomized, Vehicle-Controlled, Parallel-Group Study to Compare Confidential to Confidential, and Both Active Treatments to a Vehicle Control in the Treatment of Actinic Keratosis on the Head Region (Face or Scalp).
March 2015 – Present Sponsor: Confidential
3. Principal Investigator, A Randomized, Multicenter, Double-blind, Placebo-controlled Study to Evaluate the Efficacy and Safety of Confidential per Day of Confidential Compared to Placebo in the Treatment of Acne Vulgaris.
October 2014 – Present Sponsor: Confidential
4. Sub-Investigator, A Randomized, Placebo Controlled, Parallel-Group, Double Blind Efficacy and Safety Trial of Confidential in Subjects with mild to Moderate Alzheimer’s Disease.
August 2014 – Present Sponsor: Confidential
5. Principal Investigator, A Double-Blind, Randomized, Parallel-Group, Vehicle-Controlled, Multi-Center Study Comparing a Generic Confidential, Confidential to Reference Listed Drug Confidential, Confidential and Both Active Treatments to a Vehicle Control in the Treatment of Plaque Psoriasis.
June 2014 – Present Sponsor: Confidential
6. Principal Investigator, A randomized, double-blind, parallel-group, vehicle-controlled, multicenter study comparing Confidential (Confidential) to Confidential (Confidential) (Confidential) in the treatment of actinic keratosis of the face or bald scalp.
April 2014 – July 2015 Sponsor: Confidential
7. Principal Investigator, A Phase 2, randomized, double-blind, vehicle controlled, comparator study of the effect of Confidential and Confidential in subjects with axillary hyperhidrosis.
February 2014 – January 2015 Sponsor: Confidential
8. Principal Investigator, A follow up evaluation of study subjects treated in protocol Confidential, the Phase 3 Double-blind, randomized, parallel group study evaluating the efficacy and safety of Confidential in patients with severe recalcitrant nodular acne.
October 2013 – May 2014 Sponsor: Confidential
9. Principal Investigator, A randomized, double blind, vehicle controlled, multicenter, parallel group study of the Safety of Confidential versus Confidential and the efficacy of Confidential versus vehicle spray in the treatment of moderate plaque psoriasis.
January 2014 – January 2015 Sponsor: Confidential

10. Principal Investigator, A multicenter, double blind, randomized, parallel group, vehicle controlled Phase 3 study to compare the safety and efficacy of Confidential to vehicle in patients with acne vulgaris. January 2014- January 2015 Sponsor: Confidential
11. Principal Investigator, double blind, multicenter, placebo controlled, parallel design study comparing Confidential and Confidential and Confidential in the treatment of acne vulgaris. February 2014 – November 2014 Sponsor: Confidential
12. Principal Investigator, A double blind, multicenter, vehicle controlled study of the efficacy and safety of Confidential administered for the treatment of lice infestation. February 2014 – August 2014 Sponsor: Confidential
13. Principal Investigator, A multi-center, randomized, double-blind, parallel group vehicle active controlled study to compare the efficacy and safety of Confidential/ Confidential topical gel versus topical gel vehicle in subjects with acne vulgaris September 2013 – February 2014 – Sponsor: Confidential
14. Principal Investigator, Phase 3 trial comparing once daily treatment with Confidential with Confidential plus Confidential with vehicle in subjects with psoriasis vulgaris. June 2013 – January 2014 – Sponsor: Confidential
15. Principal Investigator, Phase 3, A Placebo and Confidential Controlled study to evaluate the efficacy and safety of the Induction and Maintenance Regimens of Confidential in subjects with Moderate to Severe Plaque Psoriasis. March 2013- Present – Sponsor: Confidential
16. Principal Investigator, Phase 3, Double-blind, Randomized, Parallel –group, Vehicle-controlled, Multicenter Study Comparing: Confidential and: Confidential Generic to Reference listed drug in the treatment of Acne Vulgaris. January 2013 – February 2014 – Sponsor: Confidential
17. Principal Investigator, Phase 3, Double-blind, Placedo Controlled, Parallel Design, Multiple Site, Clinical Study to evaluate the Bioequivalence of Two : Confidential formulations in patients with Actinic Keratosis. January 2013 – October 2013 – Sponsor: Confidential
18. Principal Investigator, Phase 3, Double-blind, Randomized, Parallel-group, vehicle-controlled, Multicenter study comparing Confidential to reference listed drug in the treatment of Rosacea January 2013 – February 2014 Sponsor: Confidential
19. Principal Investigator, A Randomized, Double-Blind, Parallel-Group, vehicle – controlled, Multicenter study Comparing Confidential to Confidential in the treatment of Actinic Keratosis of the face or balding scalp. August 2012- January 2013- Sponsor: Confidential
20. Principal Investigator, A Double – Blind Randomized, Parallel-group, vehicle-controlled, Multicenter Study comparing Confidential and Confidential to Reference Listed Drug in the treatment of Acne Vulgaris. July 2012- April 2013 -Sponsor: Confidential
21. Principal Investigator, Phase 3 Randomized, double-blind, 12-week vehicle-controlled, parallel-group study assessing the efficacy and safety of Confidential cream versus vehicle cream in subjects with papulopustular rosacea, followed by a 40-week investigator-blinded extension comparing the long-term safety of Confidential cream Confidential Feb 2012-August 2013- Sponsor: Confidential
22. Principal Investigator, A Randomized, Phase 2, Double-Blind, Placebo-Controlled Trial to Evaluate the Safety and Efficacy of Confidential Gel in Adult Patients with Mild to Moderate Atopic Dermatitis. Feb 2012-August 2013-Sponsor: Confidential
23. Principal Investigator, A Randomized, Placebo-controlled Phase IIb Study to Evaluate the Efficacy, Safety and Tolerability of Confidential Topical when applied twice daily in subjects with Psoriasis Vulgaris.
